This 8 week course provides a never before public means of accessing the wisdom of Akashic Masters in order to find your calling for this life. Like those called to be medicine people of their culture you will be guided on a path which leads you to a deeper understanding of yourself, your gifts, your abilities, your challenges and your place in the amazing tapestry of this universe.

Each of us has the option to live three different lives: the ordinary and unexamined life, the life of learning and becoming which fulfills our soul purpose, and the life of 'what if?' Each of us has a calling, an option to not only fulfill our purpose but to expand upon it. We have the ability to discover and co-create a life of 'yes/and' which can move our life from amazing to exceptional, which is the answer to 'what if.'

Everyone on this planet has a purpose; a reason for being here that goes beyond survival, goes beyond immediate family. We all have a purpose that we are uniquely suited for and which improves ourselves, the lives of others, and the Universe at large. This purpose helps us create our best and highest selves. But with Free Will, we have the ability to go even further, to experience our spiritual selves fully and practically in this life.

Working with the Akashics and Akashic Masters we are able to bring their wisdom to bear not only on ourselves, but on the world around us. Discovering our calling and opening ourselves to it in the ecstatic and transformative way that Rumi describes in his poetry provides us the means to become the change we want to see in the world.
